The purpose of the *Illustrated Everyday Expressions with Stories* series is to introduce English language learners to common idioms through humorous examples and illustrations. The lessons in this book will both entertain and enlighten students while providing exposure to how each idiom can be used in a variety of contexts.

Each lesson of the book begins with a list of ten target idioms. Within each lesson, target idioms are first defined for students. The definitions may explain the idiom in simple terms or use synonyms or other idioms to build a student's understanding of the meaning underlying each idiom. Each definition is then followed by sample sentences and short dialogs using the idiom in context. Finally, idioms are illustrated with humorous illustrations which can help build a memorable picture of each idiom's usage in the reader's mind.

Following the definitions and examples of the target idioms are two exercise pages for students to practice their understanding of idioms from the lesson. These pages include a

multiple-choice exercise of ten questions and a dialog exercise. In the multiple-choice exercise, students choose the correct idiom from the lesson to complete each sentence in the exercise. For the dialog exercise, students complete a cloze exercise of a dialog using six selected idioms from the lesson.

The final page of each lesson presents a short reading incorporating the idioms presented in the lesson. These readings give students additional exposure to idiom usage in context, as well as providing extended reading practice along with an entertaining presentation of the target idioms. Teachers using *Illustrated Everyday Expressions with Stories 2* in the classroom can use the readings as a springboard for discussion of the topics or situations described in the readings.

Illustrated Everyday Expressions with Stories series provides students with a useful approach to learning common English idioms. Students will also have fun in the learning process. We hope that you enjoy using *Illustrated Everyday Expressions with Stories*.

Read the following story.

My friend and I don't really *see eye to eye* with regard to music. He thinks that rock and punk music are great, and most other kinds of popular music are OK. In fact, he listens to *anything but* classical music. On the other hand, I love classical music.

² A while ago, we were *hanging out* at a music store when my friend saw a poster. His favorite punk band was coming for a concert. He said that we should go together. At first I told him, "No way!" But he wouldn't *lay off* begging me to go with him. Finally, I gave in and said I would go if he promised me one thing. He had to promise to go to an orchestra concert with me.

³ We saw the punk band first. I must admit that, *in terms of* musical talent, the band we saw wasn't bad.

⁴ Then it was his turn to see the orchestra. I was a little worried that my friend would not *keep his word*. But he did. Usually my friend and I *go Dutch* when we go out together. However, I knew he would never pay to see an orchestra so I bought his ticket. *In accordance with* our deal, I took my friend to see the symphony orchestra perform a night of Mozart.

⁵ I had heard this orchestra was superb, and they certainly *lived up to* my high expectations. They were great! At first my friend seemed restless. It was dark in the concert hall, but I could feel him moving around in his seat. Soon, however, he *settled down* and was very still.

⁶ After the concert was over and the lights came back on, I asked my friend what he thought. He said, "I heard Mozart speaking to me in the music."

⁷ I was surprised and said, "Really?"

"Yeah," my friend said. "He kept saying, 'Go to sleep. Go to sleep.' So I did."

I hate to fly, but I recently had to take a plane to a conference. One reason I hate to fly is that I get airsick. Before this flight, I took some medicine so I wouldn't **throw up** on the plane.

² Another reason I hate to fly is that I don't like to talk to strangers. On this flight, I **made believe** I was asleep so the person next to me wouldn't bother me.

³ **By and large**, the flight itself wasn't too bad when we were in the air. But there were always problems on the ground. For example, we had to stop in St. Louis and change planes. But the flight I had to change to was delayed. The flight I needed to catch **originated from** Washington, D.C., but it **fell behind** schedule **due to** bad weather. I had to wait in the airport for two hours!

⁴ Then, when we finally got to Los Angeles, the pilot had trouble finding the gate. We landed but the plane kept driving around. I knew that **on no account** should you get out of your seat while the plane is moving, so I started looking through one of the magazines on the plane. I came across an interesting article, so I **lost track of** time. But we must have been driving around for ten minutes at least. I asked a flight attendant for an explanation **as to** the delay. She said, "I think we're lost."

⁵ I wasn't sure if he was serious, so I said, "You're **pulling my leg**."

At that moment the pilot came on the intercom and asked, "Does anyone know where Gate 12 is?"

Idioms in Context

Read the following story.

I used to deliver the mail in a very rich neighborhood. When I **look back on** that time, I have to laugh. Most people in that neighborhood **were** very **well off** and had big houses, but they all tended to prefer small dogs. Those dogs were little, but they were also mean! In fact, I quit that job **for good** after one of those little dogs bit me.

² One thing I learned about dealing with dogs is that you have to **stand up to** them when they start barking at you. Don't **make faces** at them. If you show them your teeth, it will just **result in** making them angry. And, as a rule, it's best not to move, **let alone** turn your back on them. **Regardless of** how much a dog barks, just stand there and wait for it to get bored. Don't **lose your head** and panic. They usually won't bite unless you do something aggressive.

³ Once a little dog was barking at me when one of the people from the neighborhood passed by on the other side of the street. He yelled, "Ask the dog if he wants a bath!"

I asked him, "**What for?**"

The man yelled back, "If you ask him, he'll run away."

⁴ So I tried it. I asked the dog, "Do you want a bath?" And it stopped barking, looked at me, and then ran away! I told the man across the street, "Wow! That dog must really hate baths."

He said, "No, he loves them. He's running home now to get one."
